JOB SUMMARY:

The Lead Field Technician will work closely with the Operations Supervisor and Project Geologists to direct field logistics, drill site preparation, and environmental compliance for active diamond drilling operations. In this role, you will lead a team of field technicians, coordinate pad cutting, flag access trails, and maintain rigorous data collection and safety standards across all phases of site execution. The position combines hands-on field technical skills with strong team leadership and database integrity.

DUTIES AND RESPONSIBILITIES:

- Promote a positive safety culture and ensure work is carried out in accordance with Company policies, procedures, and applicable regulatory requirements.
- Work according to the company's environmental policies and procedures.
- Oversee planning and execution of field work while providing leadership and guidance to Field Technicians.
- Work in collaboration with the Exploration and Environmental departments to ensure:
 - Pre-, during-, and post-drilling inspections are completed in compliance with Company procedures;
 - Drill pad preparation, including spotting and flagging diamond drill pads and their access points, is executed as planned and production targets are met.

- Daily monitoring and coordination of Pad Cutters and Field Technicians to ensure pad locations are prepared ahead of drill arrival.
- Enter collected field data into acQuire software, including collar location, water pump location, drill cutting location, and site photos, and ensure the database is updated regularly.
- Perform all other tasks as required.

REQUIRED SKILLS AND ABILITIES:

- Valid driver's license.
- Physically fit and able to lift 35 pounds.
- Ability to work outdoors in varying weather and site conditions.
- Demonstrates proficiency using Garmin GPS devices, maps, and compass navigation.
- Working knowledge of Microsoft office suite, Garmin basecamp and Access. Experience with QGIS or similar software, knowledge of AQuire considered an asset.
- The ability to operate all-terrain vehicles (ATV, snowmobile).
- Strong planning, organizational, and problem-solving abilities.
- Ability to communicate effectively in both French and English to provide direction and support to employees and contractors, facilitate day-to-day site operations, and complete accurate field reports and documentation.

EDUCATION AND EXPERIENCE:

- Post-secondary education in a related field, such as mining, geology or environmental.
- Work experience in mineral exploration for 2 years or more.
- Experience working around helicopters is considered an assetsite.

WE OFFER OUR EMPLOYEES:

- Collaboration with experts in the mining field;
- Opportunities for growth within the company;
- Excellent company-paid benefits.

If you are looking to join an organization that is committed to the health and safety of its employees, values its human capital above all other resources, and continuously improves the way it conducts its business, then this position is for you.

Benefits:

- Dental care
- Disability insurance
- Employee assistance program
- Extended health care
- Life insurance
- On-site gym

- Paid time off
- Vision care
- VRSP
- Competitive compensation and benefits package
- Professional development and career growth opportunities

We are dedicated to maintaining a respectful, diverse, and accessible workplace and welcome applications from all qualified candidates. Accommodations are available upon request throughout the recruitment process in accordance with applicable legislation.

We do not require Canadian work experience except where required by law or professional licensing requirements. Language requirements, where specified, are based on the bona fide requirements of the position. We value every applicant's interest in joining our team. Candidates selected for an interview will be informed of the outcome of the recruitment process within 45 days of their final interview.
